#Bitcoin ₿ has nothing to hide. No "insider deals."

Don't outsource your thinking, just DYOR.

#BTC ₿ is "the tide that lifts all boats."

The call started with some developers in the community giving feedback about their experience with the Alpha Daemon released last September.

It won't be a surprise to anyone but people are planning to build very cool stuff. 👀

From financial derivatives to second generation stablecoins on Taro, the people in this call all seemed pretty satisfied about the simplicity of Taro so far.

So what's next in 2023?
According to Ryan, the big focus is on Verifiability and Scalability. 🤔
